

GSHA CONFERENCE SPONSOR:

GL
Assessment®

GL Assessment is a leading provider of trusted assessments, self-evaluation systems and professional development services. Working with leading universities and research teams, we develop scientifically rigorous assessments that have been used by education professionals for over 30 years. Today, we lead literacy, numeracy and ability testing in UK schools and have delivered over 7 million online tests to children in over 100 countries worldwide.

Originally founded by the National Foundation for Educational Research (NFER), with whom we continue to work with today, our tests are used by over 3 million pupils in the UK every year.

We understand that assessment is not just about taking a test; it is about continually using assessment data to respond quickly to the needs of every child at every stage of his/her learning and development. We therefore take a very joined-up approach; one that provides schools with a comprehensive range of services that ensures they can receive, interpret and use the assessment data to its full potential.
